EXPERIENCE

04

2023.03 - Present

Dentsu • Product Designer

One of the world's largest advertising and communications agencies, with Fortune 500 clients.

Working within the creative team on projects for Uk and U.S. based clients, designing B2B, B2C and SaaS products. Scope includes user research, design strategy, design ops, interaction design, component libraries, and documentation.

UX Research • Design Systems • Mobile • UI • Figma Advanced • Workshop facilitation • Adobe CC • Google Analytics • Agile (Scrum) • AI • Storybook • Maze • Figma Make

2022.05 - 2022.12

Zorya • Product Designer

HR SaaS platform used by more than 10,000 companies across 5 countries.

Designed time tracking, time off and onboarding. Built the component library and brand identity. Defined the product's tone of voice, used across the product and by the Customer Success team. Led the rebranding squad that produced the current brand.

SaaS • Component Library • Rebranding • Design System • Figma • Agile (Scrum) • UX Research

2022.05 - 2022.12

Zorya • Frontend Developer

Embedded in the engineering team to implement designs, document processes, and fix bugs.

React • HTML/CSS • GitHub • Ant Library • Storybook • Agile/Scrum

2019 - 2021

Studio Onça • Web Designer

Boutique web design studio specializing in e-commerce and institutional sites.

Managed projects from proposals and brand kits through implementation, coordinating timelines, clients, and a small team of freelance designers, with a focus on performance and mobile experience.

E-commerce • Shopify • WordPress • PHP • CSS
